

# Protect valuable air conditioning assets

Australia's best range of premium protection cages designed specifically to secure your air conditioning investment.

**Suitable for securing all Ground,  
Wall and Rooftop Installations.**

The Airshield cage system is intelligently designed to accommodate all types of installation.

**Airshield Condenser Cage**

ACA0600

W 1100 x D 550 x H 600 mm

**Airshield Condenser Cage**

ACA0800

W 1150 x D 600 x H 800 mm

**Avantage the modular Airshield cage range.**

Not only are our Airshield cages extremely secure, but the range has been intelligently designed as a modular system that matches to the broadest applications of air conditioners in Australia today.

Further it has been developed to cater to all installations.

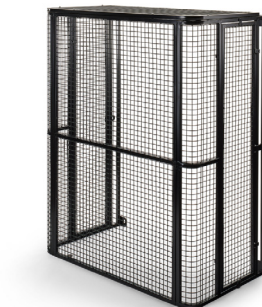

By simply selecting either an Airshield Base or a Back to Back option, you will be fully covered, regardless of the installation location - Ground, Wall or Roof.
